Nonprofit Tech, Tools and Social Media

[Why HTML Email Newsletter Editors Suck](#)

Thursday, April 05, 2012 6:40 PM

One of the biggest complaints we get from nonprofits as they mature in their online communications is that creating properly-functioning formatted (i.e. HTML) emails in their email blaster is a pain in the @\$\$\$. The trouble is that having regular email blasts as an organization is seen as a baseline measure of organizational online competency [...]

[Tips to Manage Your Online Identity Through Your Gmail Account](#)

Wednesday, February 01, 2012 9:03 AM

As an Americorps VISTA, I am forbidden from taking a second job while serving my year here with Aspiration. In an effort to possibly win some money or other free things, I have found myself registering with a few online survey companies. Understanding that their legitimacy and security may not be utmost and weary of [...]

[Managing Multiple People Doing Online Communications](#)

Friday, January 13, 2012 12:01 PM

Social networks were not invented for ease of organizational use. Individual accounts... Attached to personal networks... New Year's Photos seen by all... Cats and Dogs LIVING TOGETHER. Many a sticky situation has arisen from the organization using tools designed for individuals to try to get actual work done. Then trying to add a couple more [...]

[Using Closed vs. Open Web Site Tools as a Nonprofit](#)

Friday, December 02, 2011 10:38 AM

Recently, we had a conversation with an organization who was getting pressure to use a closed tool called Jimdo rather than the open-source tool, WordPress for their web site. Jimdo seemed easier and quicker and they wanted to know what we thought about it. Here's a couple points that we brought up with them: Using [...]
